Subject: Microsoft Settlement

Gentlemen: It is with great regret that I see this problem is not fully resolved. As a senior citizen and retired living on income derived from investments it is of the utmost concern that this problem is finally resolved. Although I personally would not have agreed to the terms of the agreement they being very bad for an industry based on innovation since Microsoft feels they can continue to support the public under these restrictions the matter should be settled for the good of the consumer and the country.
